SUMMARY

Self-taught full-stack developer specializing in the JavaScript/TypeScript ecosystem — MERN, PERN, Next.js, and React Native. Currently shipping production software at Webistan.cloud, on top of building web and mobile apps independently since 2022. Builds reliable products end to end — from database and API design to responsive, polished UI. Uses modern AI tools to build and debug faster. Open to remote roles worldwide (fully flexible across time zones) and onsite in Kabul.

EXPERIENCE

Full-Stack Developer — Webistan.cloud

Oct 2025 – Present

Kabul, Afghanistan

- Build production web applications end to end within a dev team, collaborating with a dedicated Figma design team to turn designs into responsive, working UI.
- **POS System** (live across 3 branches) — Built the **full backend** and contributed to the frontend UI of a multi-branch point-of-sale platform: sales, inventory, suppliers, customers, deliveries, and unlimited branch operations.
[Next.js](#) · [TypeScript](#) · [MySQL](#) · [Prisma](#) · [Zustand](#) · [ShadCN UI](#) · [Tailwind](#)
- **SheReads** (live — shereadsapp.com) — Built the complete **frontend and admin panel** for a global online reading platform: book discovery, preference-based recommendations, search, filtering, and full content management.
[Next.js](#) · [TypeScript](#) · [Tailwind](#) · [ShadCN UI](#) · [Framer Motion](#) · [Prisma](#)

Full-Stack Intern — Coding Samurai

Mar 2025 – Apr 2025

Remote

- Built **Chatty**, a real-time chat application (MERN + Socket.io) with JWT authentication and a responsive UI focused on scalability.

SELECTED PROJECTS

- **Portfolio** (mostafa-meerzad.vercel.app) — SEO/SSR-optimized personal site featuring “Mozi,” an AI assistant I built that answers recruiter questions in real time. [Next.js](#) · [TypeScript](#) · [Anthropic API](#).
- **Fixr** (in progress) — Reverse-bidding marketplace for local home services: Expo mobile app, Next.js admin panel, NestJS backend, real-time chat, OTP auth. [React Native](#) · [Next.js](#) · [NestJS](#) · [Prisma](#) · [PostgreSQL](#).
- **Promptopia** — Full-stack AI prompt-sharing platform with authentication, CRUD, and a responsive explorer UI. [Next.js](#) · [TypeScript](#) · [PostgreSQL](#) · [Prisma](#).
- **Movie-Flex** — Mobile movie-discovery app: search, trailers, trending, and personalized recommendations via the TMDB API. [React Native](#) · [Expo](#) · [TypeScript](#) · [NativeWind](#).

SKILLS

Frontend: React.js · Next.js · TypeScript · JavaScript · HTML5 · CSS3 · Tailwind CSS · ShadCN UI · Framer Motion · Zustand (state management) · Responsive & accessible UI

Backend: Node.js · Express.js · Next.js API Routes · REST APIs · Prisma ORM · PostgreSQL · MySQL · MongoDB

Mobile: React Native · Expo · NativeWind

Tools: Git · GitHub · Vercel · Postman · Linux CLI · Figma handoff · AI-assisted development

CERTIFICATIONS

freeCodeCamp: Responsive Web Design · Front-End Development Libraries · Back-End Development and APIs · JavaScript Algorithms and Data Structures

EDUCATION

Kabul University — Computer Science (Information Systems) · 2019–2021

Admitted via the national Kankor exam; completed 4 semesters before the 2021 political crisis, then moved to self-directed, project-based learning.
